

WEB HACKATHON

RULEBOOK

Introduction

Tech Zephyr 4.0 is a high-energy online and offline hackathon where teams design and build innovative web applications based on a surprise problem statement. Think fast, code clean, and design smart.

The event challenges participants to transform ideas into fully functional web applications within a limited time. It focuses on creativity, real-world problem solving, and modern web development practices. The problem statement and theme will be revealed at the start of the event.

Event Details

- **Mode:** Online and Offline
- **Type:** Open to all
- **Rounds:** 2 (online and offline)

ROUND 1

- **Mode:** Online
- **PS Release:** 12th September 2026
- **Duration:** 24 hours

ROUND 2

- **Mode:** Offline

Team Rules

- Team size: 1–4 members
- Only one member submits for the entire team
- A participant cannot be part of multiple teams

Development Guidelines

- Projects must be developed during the hackathon period
- Third-party libraries, APIs, frameworks, and AI tools are allowed but must be disclosed
- UI templates or boilerplate code must be declared
- Plagiarism or unethical content leads to immediate disqualification
- Only working and functional projects will be evaluated

Submission Requirements

Before the deadline, teams must submit:

- A working demo (hosted link or locally runnable build)
- A GitHub repository with clean code and a professional [README.md](#)
- A live deployed link

Judging Criteria

Criteria
Innovation & Creativity
Functionality & Execution
Technical Implementation
UI / UX Design
Adherence to Theme
Equal Work Distribution

Code of Conduct

- Respect all participants, mentors, and organizers
- External help or outsourcing is not allowed
- Any form of cheating or unethical behaviour results in disqualification

Hardware & Network Policy

- Participants must use their own devices
- External servers may be used if disclosed
- No DDoS attacks, API abuse, or network manipulation
- Backup your work regularly—organizers are not responsible for data loss

Intellectual Property

- Teams retain ownership of their projects
- Organizers reserve the right to showcase submissions for promotional use
- Third-party API licenses must be followed strictly

Important Notes

- Copied projects from courses, YouTube, or AI tools (without disclosure) will be disqualified
- GitHub commit history will be reviewed
- Commits must begin after the announced date and time

The organizers' decision will be final and binding
